

Our Mission

To provide a non-profit community service, dedicated to delivering professional consumer credit education, confidential counseling and debt management to all segments of society, regardless of their ability to pay.

The last year was filled with excitement for all of us at CCCS of Nebraska. Challenged by our mission to provide excellent service to those we serve, we expanded our educational program and our housing program.

The CCCSN Board of Directors and staff are continually engaged in improving the quality of our programs, services, operations and strategic direction.

CCCSN has been recognized by COA as an agency offering “The Highest Standards of Professional Performance” and we are currently in the process for working toward re-accreditation. In addition, our certified counselors continue to participate in workshops and training sessions in order to stay current with issues important to the consumer.

We are pleased to announce that CCCSN was recognized by the National Foundation for Credit Counseling. We received the **PACE Award** the “Graduate Client of the Year”! One of our families and their counselor were recognized for their dedication and team work in overcoming significant financial problems and paying off their debt.

With a solid organization in place, a dedicated staff of professionals and a renewed commitment to the CCCSN mission, we look forward to the year ahead!

Sincerely,
